

Joint Expeditionary Force Experiment (JEFX) '02 Initiatives

Theater Space Control

Provides the JFASCC with tactical control of space assets

Suter II

Provides real-time capability to synchronize multi-sensor cross-cueing

Master Air Attack Plan (MAAP) Toolkit

Continuously brings near-real time threat/resource information to the JAOC

Predictive Battlespace Awareness

ISR analysis/decision process providing predictive view of the Area of Operation (AOR)

Panther Den

Additional and increased IO capability and awareness

SOF Blue Force Tracking/Special Team Sensor

Find, fix, track, **don't target** Blue Forces

Combat Search & Rescue 2007

Capability to prosecute rescue as a time critical target; reduces survivor/evapor exposure time
